EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan S. Hodes (Reg. No. 38,185) on September 15, 2006.

2. The application has been amended as follows:

Claim 35 (currently amended)

Please replace the first line of claim 35 with:

A computer readable [[media]]storage medium including computer program code for

Claims 36 (currently amended)

--END OF AMENDMENT--

3. The following is an examiner's statement of reasons for allowance:

Independent claims 26, 35, and 40 define tag library extensions for processing custom action tags in web pages. As part of this extension, the claims define an object-oriented tag handler, which comprises three specific methods (the described do-start, do-body, and do-end methods) for processing the custom action tag and effecting translation of the custom tag body from a scripting language to executable platform independent code necessary to carry out the actions defined in the custom action tag body. The prior art of record fails to expressly teach or fairly suggest this particular arrangement for processing and translating custom action tags in web pages in the context of the other tag library extension features recited in claims 26, 35, and 40. Claims 27-34, 36-39, and 41 are considered allowable at least by virtue of their dependence from allowable claims 26, 35, and 40.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
